

Happenings at the Deaf Unit

Greetings from Cairo!

As we have seen how God heard our prayers last year, this year we ask Him to fill our hearts with the love that He shows us through sending His one and only son Jesus Christ to the world not just to save us from our sin but also to show us how to live. May our mighty Lord help us live our lives through His Son, also help us to love each other just like the love in the relationship of the Son, the Father and The Holy Spirit.

"This is how God showed his love among us: He sent his one and only Son into the world that we might live through him"
1john 4:9

MERRY CHRISTMAS every one we wish you all joyful year full of love and happiness from the heart of the lord.

Melad and Makarios our newest coming boys. This year is their first year at the deaf unit. both of them are from Upper Egypt, They are doing great as they adapt well with the school and with their friends and also they have become good friends for each other as they are taking care of each other. Please pray for them and for their families.

Continuing the project that we have started this year aiming at integrating children, our deaf children with the community and to be aware of the community about them. We have invited the governmental school boys and girls to have a meal with us at KFC to give the children a chance to get to know each other and to have fun together. The reason we choose that KFC branch is because its staff include some deaf workers and that shows our children how they can get different jobs later on then we were surprised when the government school invited us to attend the circus at their school.

Like every year the children were waiting for the carol concert at the British school, our children enjoyed it a lot and when our children sing: "Jesus king of kings....." in sign language the audience couldn't stop clapping for maybe seven minutes.

We also visited the English School in New Cairo for the children to spend time together, playing, practicing activities, and thanking the lord for everything our deaf children were happy, have a lot of fun and enjoying their time.

In progress of the integration project the parents of the students of the government school agreed that their children would attend a journey with our children at The Cultural and Creativity Center for children and both enjoyed their time together.

Like all the children around the whole world waiting for Christmas and Santa Clause with his presents from God hand and because we are caring for our children and we want them to be happy like any, we made the Christmas party and they enjoyed it a lot as they were very excited because of the presents they got.
