

Greetings from Cairo!

While Rev Farag and his family are away completing further studies in deaf education at Latrobe University, Australia, Mr. Michael and Ramez are leading the deaf unit with a wonderful team. The children and the staff are doing very well and experiencing God's hand in everything. The children went home for the Easter holiday and they will come back to school on the 22nd April.

Marco, the ear-mould technician, is helping one of the deaf school girls making a new ear-mould for her. The clinic is providing significant support not only for the deaf children but also for the whole community.

On the 21st March, we celebrated Mother's Day, which was very moving. The children gave presents to their mothers and teachers to express their love and appreciation. We prayed together and the celebration concluded with refreshments. The parents of the children expressed their gratitude to the staff and administration, and prayed for a fruitful future for their children. Most of the children achieved high grades in their exams and we expect 8 students to move to local schools for higher education in May. We thank God for all the support and protection we needed.

The Japanese Embassy staff made a special visit to the deaf unit. They visited the classrooms, the workshop and the clinic. Our visitors were amazed by the progress and activities which they saw. They promised that further cooperation between the Embassy and the deaf unit will be discussed in the future. We are so thankful for the Japanese Embassy in Cairo.

On Friday the 11th of April, it was the Easter Food Distribution day. More than 70 deaf families with their children attended the evening prayer meeting. Clement and Maged, the two deaf lay ministers, gave a wonderful message about God's love. All the attendees were very happy and thankful. We thank God for all our brothers and sisters who support the food distribution ministry.

We thank you for all your prayers and support, please continue to pray for: Rev Faraga and his family, the children and their parents, the presidential election in May, the bible translation project, peaceful and fruitful future for our country.

Clement and Maged are leading the church for the deaf
